

Application for post of Member for MBA-BM/HRM Placement

Committee 2021-2022

Name: Vaibhav Nagpal

Roll Number: UM20067

Statement of Purpose:

I completed my BTech in 2016 and have an experience of 4 years working as an SAP ABAP developer at Accenture. Having worked in a client facing role I have developed good communication and relation building skills. Working my way up from the bottom of the organisational pyramid, I know the essence of team work to drive results for an organization. During my engineering I was the co-ordinator of the robotics society. Therein I had the first taste of managing a team, which was then followed by the additional responsibility of mentoring and leading a team of new resources that was entrusted upon me by the leadership at Accenture. This experience helped me enhance my leadership abilities. Due to the transferable nature of my father's job, I have lived at multiple places and got an opportunity to interact with people from different cultures because of which I can adapt to any environment or situation. This trait helped me build up a strong network. I am very enterprising and like networking. I believe my professional experience of working with various people, leads and clients will help me to do justice with the role of a member of Student Placement Committee (CAS)
