

## **Application for post of Coordinator Placement Committee 2021-2022**

**Name:** Nupur Ratnani

**Roll Number:** UH20036

### **Statement of Purpose:**

Being a core member of the Placement Committee is one of the most prestigious responsibilities, which gives an individual the most exposure and opportunities to learn. I am a fresher, hence interacting with the HRs of various organisations would give me the insights on how communication goes on in the corporate world.

Being a part of this committee is not an easy task. There will always be people who will criticise you for what you do. However, in these times, being strong and not being affected by their words is the key to being resilient.

Negotiations is a very important skill to have, being in the placement committee will help me in improving my negotiation skills which would in turn help me a lot in the future.

Being a part of XIMB, I would always be indebted for being selected in this prestigious university, and in return, would like to work for the placement committee of XIMB to get the students placed in the best organisations.
