

Application for post of Member for MBA-BM Placement

Committee 2021-2022

Name: Diksha Adishree Nayak

Roll Number: UX20201

Statement of Purpose:

Academic excellence and placement remain the most functional aspects of XIMB. Placement is mostly a student-driven process. In fact, it is the success or failure of placement season which invariably becomes a part of the identity of our college. The placement process in XIMB is one of the most gruelling, yet rewarding processes. Having said that, I acknowledge how pertinent it is to elect responsible members of the placement committee.

My college days were involved in establishing the ground architecture for MUN which went from being sporadically existent to being a force to contend within the circuit. In the niche that management graduates have to carve out for themselves, a lot matters on the passion we exhibit to the market. Having accompanied my fellow batchmates and seniors in their tribulation during the placement process, I have come to the realization that there is nothing I like more than helping people. In addition to my ability to relate to people and my deep compassion for them, I bring with me a drive to work incessantly till I have achieved what is expected of me. I can admit my mistakes and be held accountable for what is my responsibility, and I hope I have demonstrated this during my shadowship.
