

Application for post of Coordinator/Member for MBA-BM/HRM Placemen

Committee 2021-2022

Name: Surbhi Fandot

Roll Number: UM20367

Statement of Purpose:

Placement is always an integral part of B schools and amount of selfless hard work, stress and sincerity it takes is unmatched. After working as a shadow, now I am more infatuated by the thought of working for my batch and converting Core will provide me this opportunity for taking responsibility for my batch. Another reason is that joining Placecom Core will boost my networking, interpersonal and negotiation skills.

I would bring my professionalism in my approach for tapping alumni and companies. I have completed 3 years of articleship and earned 14 months of work experience, hence I want to contribute my management skills to the college in helping for better placements and also learning and improving various skills during this journey. Two of the major skills that I can learn and apply is manpower management and communication. I want to get the chance to have nice friendly chats with HR and other important people representing big firms. I believe converting Core will be like a crash course at leadership, organization skills, team work, discipline, planning and handling short deadlines. I believe my good rapport with students will help me achieve these things and handle the pressure with my team.
