Statement of Purpose:

During my stint as a CAS Shadow, I realized the importance of 2 things:

- Importance of Execution of tasks and Managing members during diverse scenarios.
- Experience of working with team members, taking into account their individual differences and still being able to work together as a team, delivering the stuff in time and effectively with smooth work delegation.

My efficacy during the diverse range of deliverables I have been a part of, be it during my during my tenure as a shadow or professional and academic stint stand testament to the fact that I possess the following virtues:

- Persistence
- Team spirit
- Versatility
- A knack to constantly learn and evolve
- Integrity

The sense of responsibilities imbibed as a CAS shadow have forged me to take a bigger responsibility and contribute something worthwhile.

I want to conclude my SOP with a very interesting thought:

"Imagine a world where alarm clocks don't exist. Your sense of responsibilities, your drive and thirst for excellence and your persistence to be the best wakes you up. Where you aspire to nurture the vision to take your university to the apex level. Yes, I want to build that world as a CAS member."
