

Application for post of Member for MBA-BM/HRM Placement

Committee 2021-2022

Name: Indrashis Chowdhury

Roll Number: UH20028

Statement of Purpose:

CAS Committee being the corporate interface of the college will provide me an opportunity to act as a liaison between the corporate world and the students. Joining this committee will provide me real-time insights into corporate dynamics and equip me with experiences for a lifetime. In my under-grad, I conducted an Air Show wherein I had to get sponsorships and media coverages, this opportunity set the foundation for my corporate interactions and made me confident of my leadership and communication skills. The entire process pipeline including calling recruiters, branding our B-school's name, converting them successfully, or even failing in the process will help me in becoming more resilient and composed during adversities. Negotiation is an important managerial skill and by being a part of this committee, I will be constantly chasing down my limits for better and bigger negotiations. While all these would help me become better at the role that I will be working on, I really believe that my best strength is my candid connection with people around me. Also, I strongly believe that the skills of teamwork and conflict management which I gained while working in my previous organization will help me in becoming a successful placecommer.
