

Application for post of Member for MBA-BM/HRM Placement

Committee 2021-2022

Name: Siddhi Neema

Roll Number: UH20050

Statement of Purpose:

From being an undergraduate placement committee vice president to stepping into the shoes of a B-School placement committee shadow, I have understood and assimilated the major shift in the responsibility that a B-School placement committee demands. Having understood the dynamics of the changed requirement, I have systematically scaled up my dedication and perseverance. This journey as a CAS shadow has called for multiple sacrifices, but being sensitive to the batch and the committee's demand has always been my top priority. As a part of the placement committee in my undergrad college, I have fair idea about the workings which has helped me understand the onus that the committee carries. More importantly, the tenure as a CAS shadow has actually taught me some of the nuances of the process.

I feel that being a core member comes with its own share of responsibility and sacrifices and someone who isn't hardworking can never do justice to the same. Hence, I have refined my innate ability to work hard even further. I also have been agile in learning and implementing things. Having talked all about my strengths I feel that it would be incomplete if I fail to mention the rapport that I maintain with my fellow batch mates and even for that matter any person that I interact with.
